

Description:

Vibracoustics Ltd Vee Hanger VS7107 consists of brackets with a stiffener plate and two V2 type bobbin mounts in a vee configuration.

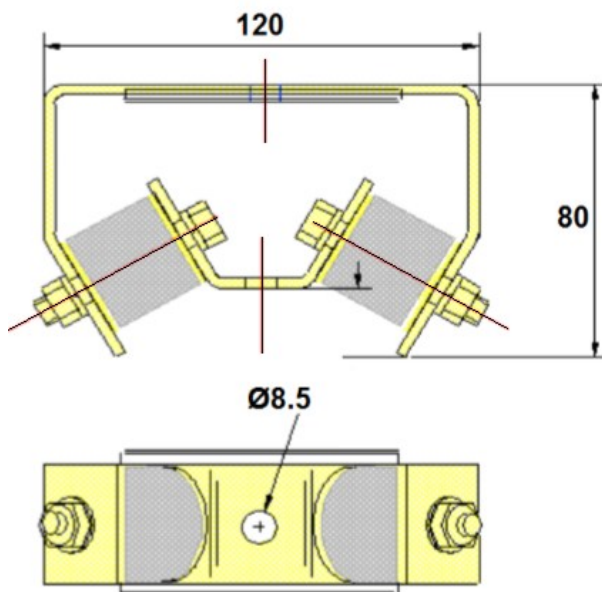

Designed originally as a flexible suspended ceiling support, the mount is ideal for many applications.

The standard construction provides a simple fixing and is available in a range of rubber elements to achieve optimum isolation properties, over a wide range of supported loads.

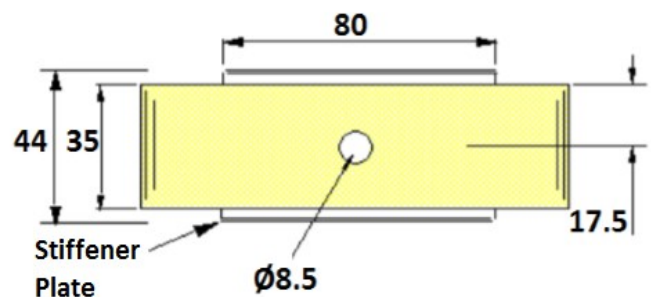

Typical Applications Include:

- Pipework supports.
- Ceiling hangers.
- Cable tray supports.
- Equipment hangers.

Vibracoustics Ltd Vee hangers are simple to assemble and install on site.

Studding is not included as standard but is available separately with nuts and washers.
