

Standard Vi-Cone Mountings Product Group 47

Conical Mountings consist of a mounting plus an overload washer and a rebound washer.

To order a complete assembly add the suffix 'AS1' to the individual mounting part number. E.g. part number VS4713 N70 AS1 is an assembly consisting of:

The conical mount	Part Number: VS4713 N70
Overload washer	Part Number: 4018 035
Rebound washer	Part Number: 7718 003/60

(fixing bolts and screws are not included)

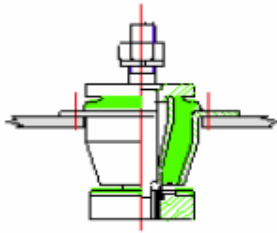

See datasheets 47-A- 01_05 for basic Vi-Cone Mountings and Assemblies.

Alternative Arrangements Product Group 48

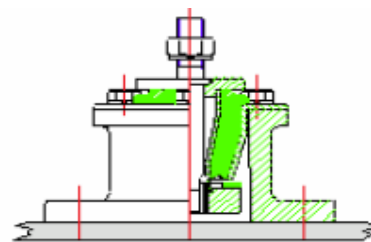

Special assemblies are available for applications such as marine equipment where large holes in structures are impractical or access is restricted. Height adjustment versions permit easy alignment of shafts and couplings and future re-alignment after mountings have settled.

Vibracoustics Ltd supply mountings complete with clamp studs, pedestals and height adjustments or any combination of these to simplify installation. (fixing bolts and screws are not included)

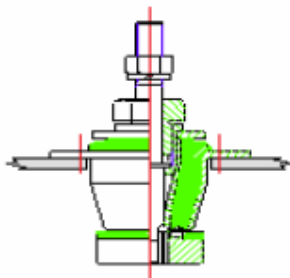

Mount and Stud assembly only.
Please use the Suffix '**S**' when ordering.

e.g. Part Number: VS4711 N70 **S**

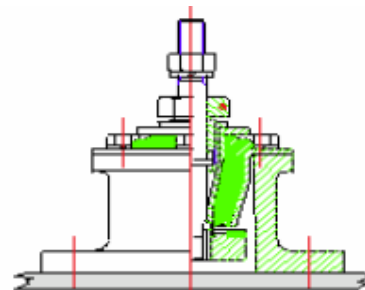

Mount assembly with Stud and Pedestal.
Please use the Suffix '**SP**' when ordering.

e.g. Part Number: VS4711 N70 **SP**

Mount with Stud and Height Adjustment.
Please use the Suffix '**HA**' when ordering.

e.g. Part Number: VS4711 N70 **HA**

Mount with Stud, Height Adjustment and Pedestal.
Please use the Suffix '**HAP**' when ordering.

e.g. Part Number: VS4711 N70 **HAP**
