

Description:

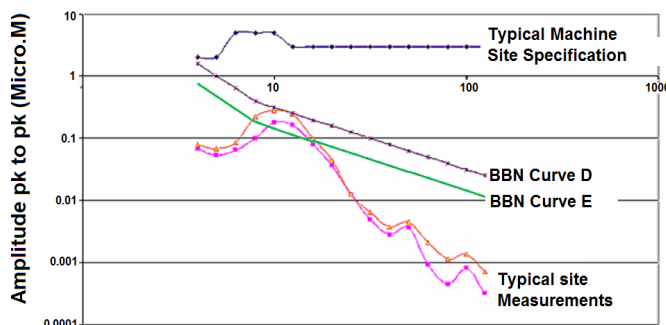

Vibracoustics Ltd Support Pedestals are designed and manufactured to meet local site requirements. From initial site survey, through custom base design, to manufacture, supply and final installation.

Vibracoustics Ltd offer a complete service to enable clients to achieve optimum performance of newly installed equipment. Used mainly in the semi-conductor manufacturing industry, Vibracoustics Ltd designs offer many advantages:

- Eliminate the need for heavy concrete structures.
- Custom built to overcome site constraints.
- CAL Air Mount system suspensions for higher performance.
- Finite element design as appropriate.
- High rigidity structures.
- High load capacity.
- Detachable feet for subsequent re-location.
- Tough powder coated finish and optional stainless steel tops.
- All fixings suitable for clean room applications.
- Short Lead times, including installation.
- Optional initial and final site surveys available.

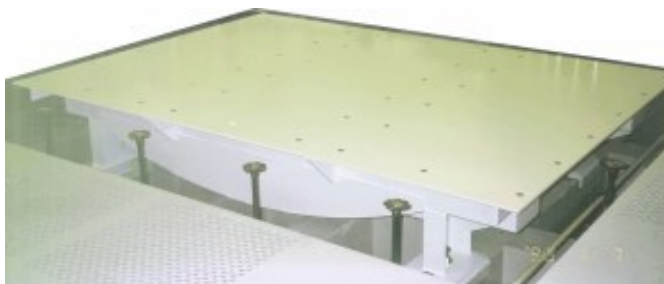

**For 12 Tonne Machine
Air Mounting System Available**

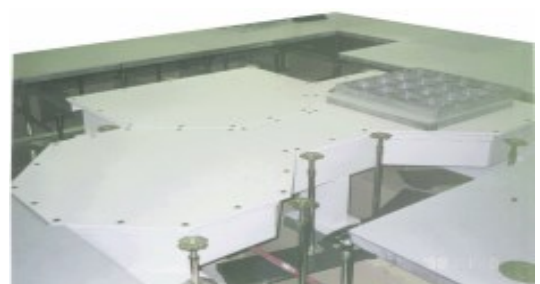

1/3 Oct Centre Frequency

**For 1 Tonne Machine
Concealed Pad Type**

For 5 Tonne Machine

For 3.3 Tonne Machine
